NEVER DESPAIR OF LIFE!

KELLEY & CO'S
HIGHLY CONCENTRATED
SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives
Annually!!

10,000 CASES

Of SCROFULA cured by it this year and 5,000 Cases DYSPEPSIA and HUMORS of which *proof* can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottles at its FULL STRENGTH and power without reducing it, and this is done for the special benefit of those who use it, as it is objected to all other sarsaparillas that they are Weak, Clumsy, Adulterated, Sickish and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other and Six Times Better, Safer, Surer, and Cheaper than all others. *THIS* Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world, and CURES all the Sickness, KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH
KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES, astonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says "that there is no medicine in which he has so much confidence for **Diseases of the Lungs**." Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities. And says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England, that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing injury." What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS! It CURES with every thing else fails, the

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is that it makes the **BLOOD** perfectly Pure, Rich, Healthy, Quick, Free, Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful, Strength wasting, Appetite gone, Pulse weak, or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas is that it does not dampen with the patient or prolong his sufferings. But it first attacks the disease and stops it, then removes it, then brings up the flesh and strength, it perfectly pure Blood so that the cure is always thorough and permanent. Others only scatter or back in the disease, but this EXTIRPATES it wholly from the system—this saves the patient life while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant that **Medical Colleges, Professors,** and Physicians always prefer it for the sake of its Superiority. Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH!

Ladies, Married and Unmarried!

It is for you especially that this Sarsaparilla is made, as the HEALING ART has been tasked to the utmost to have it exactly suited to **FEMALE COMPLAINTS.** These Complaints have never been cared for as they ought, hence it is that all the medicines which are used with the hope of Cure so invariably and entirely fail. But this Sarsaparilla has the **SPECIAL** ability to cure every Disease, Affliction or Pain, which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles

TO THE AFFLICTED

DR DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame, at his office

No. 55 Union Street

Dr D has been in extensive practice in all parts of the United States and has now in his possession the best of evidence to show that he is a regular M. D. He has been upwards of 40 years in practice. The diseases of females will receive the Dr's particular attention. He will tell all diseases from an examination of the eye; this is an advantage that Dr D. has above all other practitioners and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient of the disease with which they are affected. The age and length of time the patient has been suffering [illegible] the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr D has been very successful in the treatment of Colds, Coughs, Consumptions and Liver Complaints, all Pulmonary diseases, Scrofula, Rheumatism, Fits, Dysentery, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder, the dolorous Hernia, Abdominal Weakness, Tooth-ache, Intemperance, Stammering. Dr D warrants a cure of any of the above diseases if applied to in season.

He would also respectfully inform the Ladies that he will attend to their cases and complaints from 9 to 12 A M and from 2 to 9 P M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package.

All communications (post paid), with a fee enclosed, will be strictly attended to.

DR CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With other articles of vegetable origin are combined [illegible] to render them more active, and consequently more immediately effective.

The Dock, or rather a species of it [illegible] ranks as a medicinal plant second to no one of the vegetable kingdom. With the aid of a [illegible] chemist with the [illegible] preparation of the compound he has succeeded in overcoming the difficulty of procuring the extract [illegible] for any great length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract ought to be relied on and least liable to decomposition is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues for a long time without heat or any other accelerating agent. None is permitted to be used in the compound that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofulous Erysipelas, Ulcerous Affections, Eruptions and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution, among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates with which the proprietor became familiar in his practice in Havana some years since, the remedy and will prove particularly efficacious, both as a remedy and a preventative.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice and it is believed to be in favor with his medical brethren in general to whom he is known.

Prepared only by Dr Stephen Cummings, and sold at wholesale and retail by Joshua Burgin & Co. No 143 Middle street and Edward Mason No 153 Middle street—only agents for Portland.

The Great Remedy for Gonorrhœa

GLEET, Stricture and all analogous complaints is Dr. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union during the last 40 years. His only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr D most solemnly affirms that during his practice of forty years this Paste has never in one single instance failed of effecting a cure in a few days without any change in diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared and the patients were discharged, entirely cured.

If the unfortunate instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emancipated bodies and sallow countenances as we do at at the present time.

☞In case the Paste should fail to effect a cure in the shortest possible time ten times the price paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor Dr PETER G. DOUGLASS at his Office, No 55 Union street, Boston, at $5 per box where he can be confidently consulted on every disease incident to the human frame and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

THE ELECTION.

We give below the returns received It is impossible, of course, to determine the result from the few returns given in this Congressional district—But we have strong hopes of the election of Mr Washburn the Whig Candidate At all events the Whigs have done nobly—and have stood up against fearful odds manfully and firmly

We think it very certain that Gov Dana must be defeated in the State So far all looks squarely well for a vigorous and successful campaign for the Nov election—when "Old Rough and Ready will take the field in person He never lost a battle and he will not loose the one coming on—Depend upon that.

Total Eclipse of the Moon.

To-night there will be a total eclipse of the moon which will be visible throughout the United States At Boston it will take place as follows, in mean time

Beginning of the eclipse at 11h 47m P M , 12th
of the total eclipse at 0 45 A M , 13th
End of the total eclipse at 2 24 A M , 13th
of the eclipse at 3 22 A M , 13d

The eclipse will begin at a point on the eastern or left side of the moon, 78 deg. from the northern most point.

Although on this occasion the moon will be totally immersed in the shadow of the earth 1h 39m , it is probable that she will not altogether disappear but will remain visible, of the color and appearance of tarnished copper—the light of the moon will, however, be undoubtedly so much diminished, that an occultation of a small star (of the 7th or 8th magnitude) may be seen, which otherwise could not be observed

Illinois.

The Chicago Democrat, a Cass and Butler paper, says —"It cannot be denied that there is a considerable defection from the Democratic party in this city, and that General Cass will not receive so large a majority as we have formerly given at Presidential elections"

Shocking Casualty

Mr Reuben Hanson, a man engaged in one of the quarries at Thompston, says the Lime Rock Gazette, received a shocking injury on Wednesday last, by a premature explosion, while in the act of blasting Lime Rock His person was terribly mutilated, both eyes destroyed, and one hand so badly injured as to require immediate amputation

For the Whig and Courier

The Presidential Election—Its Misfortunes.

Next to our foreign relations, the tariff and the exercise of the executive veto demand the serious consideration of the people The democratic party are opposed the a protective tariff Both candidates in opposition to Gen Taylor are opposed to the great doctrine which the Whigs have ever maintained on this subject Van Buren accepts the Buffalo nomination subject to a few variations, one of them is that he is for a revenue tariff Cass accepts the Baltimore Convention and the platform of the party as set forth in the resolutions Those resolutions repudiate al, together the doctrine of protection —They declare the democratic party is in favor of a tariff for revenue only

The difference between the Whig party and the Democratice party on this subject is, that the former advocates a protective tariff or a tariff so arranged as to give sufficient revenue, but discriminating for protection to all American manufacturers and labor—the later regard only the question of revenue, and discriminate for revenue instead of protection And the tariff of 46 was made in its details to carry out that principle, while the tariff of 42 was based on the principle of revenue and protection. And this is the great leading difference between the two, and makes the difference in the prosperity of the the country under that of 42 and that of 46

The general stagnation in business in all parts of the country at this time is owing mainly o the destruction of the tariff of 42 and the substitution of that of 46 arranged on an opposite principle From 1832 to 1842, the country had languished under a revenue tariff—a great change was made in 32 by compromise, as it was called between Messrs Clay and Calhoun, by which there was a gradual reduction of duties till they should fall as low as 20 *per cent*—That system continued for ten years, and when the country had gone through the year 1841, it became absolutely necessary for Congress to make a change in order to obtain money to keep the wheels of Government moving And they wisely returned to the protection principle, arranged the bill of 42 for revenue and protection Under this law, the Treasury was supplied, so that the Government would move along without borrowing, and the great interests of the country quickly sprang into life and vigor—not the manufacturing interests only, but its effect was beneficia on all other interests—its effect on the concurrency was most salitary That bill was passed by the Whig party in 42, by the Congress by which came in with Gen Harrison The Democratic party throughout the Union with a few exceptions, opposed it—and the moment that party obtained the power to destroy it, it was done

So popular was that act, that the Democrats did not dare oppose it openly but professed to be friends to it—and even here in Maine the *little* stump orators in the campaign of 44 advocated the election of Polk and claimed to be friends of that act In Pennsylvania, the Democratic party went in solid column for the tariff of 42 and boasted it on all the r banners during the canvass Polk swindled Pennsylvania in that election Buchanan became a party to the fraud, traversed the State and claimed that Polk was a stronger friend of the tariff than Clay He boasted, after the election, that he had convinced the Pennsylvanians that Polk was the best tariff man of the two In the face of all these avowals of adherence to the tariff by the Democrats, the first blow they struck, under Polk s administration after annexing Texas was at the tariff of 42

Nothing but hypocracy, and falsehood in the face of the people in many parts of the country enabled them to obtain power to destroy that act—no tariff system under our constitution found such favor with the people in nearly all the States And if it had been known before the election that Polks influence would be to destroy that system, he could not have obtained one hundred electoral votes Never was a President chosen by such base deception, nor after he was chosen, acted a baser part

The history of this country has proved the necessity of protection to American industry Under a revenue tariff, the importations have far exceeded our exports, and a balance to Foreign nations has accrued against us, which has drained the country of specie, crippled the banks, and embarassed all kinds of business—Since the tariff of 1816, this has been the case, the experience we had under that, and succeeding acts has proved it The abandonment of the tariff of 42 is the cause now of the hard times every where felt—it can not be our trading or speculation, which has produced them

The people have been hard at work for the last six years to retrieve their lost fortunes, and have done well and were doing well when a blight came upon them But the cause is excessive importations, a drain of specie, which has drawn hard on all the banks And there is no relief, and can be none until the country returns to the policy of protection to American labor, and a restriction to importations

Cass has avowed himself fully in favor of the present tariff—and if elected his whole influence will be against a change

Taylor, though a Southern man, has declared that it was a question for Congress, and what the people declared through Congress on this subject, should be carried out by him That is all any man can ask or desire If he is elected, a Whig Congress will be elected with him, and we shall have a change

The exercise of the veto by the Executive of late years, has become the bane of our political system. The power given by the Constitution to the Executive to prevent the encroachment by Congress on the rights of the President, has become at last one of the principal sources of trouble

The people have been denied the passage of laws the most salutary by the President It has been used for party purposes, and at the dictation of party leaders; so much so, that unless there is a change of hands in the use of the power, the people will demand that it be stricken from the Constitution It was kingly power and never should have been permitted to exist in our political system. It has often been exercised; but who can say, that for the period of our constitution it has done any good? For one ofice it has done evil It has wrought a change in the structure of our government. It is now necessary to an election the chance of a veto as nearly all the great questions that come before Congress, The framers of the constitution never dreamed of such a practice Polk has exercised at several times during his administration. He has denied to the sufferers of French Spoliations relief that the country should have acknowledged and paid thirty years ago He gave, too, the worst of all reasons for his exercise of the veto up that occasion—that the claim had slept so long it was inexpedient to revive it—In other words, that injustice had been done so long it was best to continue it A veto under such circumstances, and supported by such reasons, in the early days of the constitution would have brought the President to trial on articles of impeachment

The Baltimore resolutions affirm the use of the veto Cass, if elected, becomes the supple tool of the party and will do its bidding He is pledged to one it whenever the interest of the party require it—and especially on the Wilmot Proviso

General Taylor has expressed himself fully on the exercise of this power, and his views accord with those who put in operation the constitution He will leave the question of slavery, restriction, tariff, currency, and internal improvements with Congress, where they belong

If the Whig party are wise, they will make strenuous exertions for his election He stands before the country pledged to no party, but he is pledged to the constitution, and a prudent exercise of its powers He is firm, judicious, clear sighted and honest—this his opponents concede to him

If he is elected, he will settle to the satisfaction of the country, the great questions that agitate the people—and by precept and example allay the spirit of conquest

Ocean Monarch.

Official Statement—The Ocean Monarch, 1300 tons burthen, left the Mersey early on Thursday, with about 380 souls on board, including crew and passengers We discharged the pilot about 8 o clock No incident worthy of note occurred until we arrived off the Ormshead, at which time it was nearly 12 o'clock Orders were given to tack ship and while hauling the main yard, it was stated that one of the steerage passengers had made a fire in one of the ventilators without reflection I immediately sent the steward and another man to extinguish the fire and bring up the delinquent who had made it Immediately after this one of the cabin passengers came on deck and stated that the cabin was full of smoke, which was coming from below

On hearing this I ran down to ascertain the position of affairs, and found that the ship was actually on fire I then hurried back to the deck and gave orders to have water poured upon it, and directed that the ship should be kept before the wind in order to lessen the draft, but the flames with a rush, almost as instantaneous as lightening, burst forth, and in less than five minutes the whole stern of the ship was completely enveloped in the fiery element I then gave orders to have the ship brought to the wind All was now a scene of the utmost confusion, noise and disorder My orders could not be heard—Despair had seized almost every soul on board The scene which presented itself was most awful to contemplate, much less to look upon

At length the foremast went overboard, snapping the fastenings of the jibboom, with its human beings dropped into the water amid the heart rending screems, both of those on board and those who were falling into the water Some of the poor creatures were enabled again to reach the vessel, others floated away on spars, but many met with a watery grave

The flames were burning with immense fury from the stern and centre of the vessel So great was the heat in these parts that the passengers, men, women and children, crowded to the fore part of the vessel Their piercing, heart rending shrieks for aid, were carried by the breeze across the dark blue waves In their maddened despair, some of them jumped overboard with their off spring in their arms, and sunk to rise no more Men followed their wives in frenzy and were lost Groups of men, women and children also precipitated themselves into the water in the vain hope of self preservation, but the water closed over many of them forever, and fearfully realised the inspired declaration that in the midst of life we are in death In vain did I entreat and beg of the passengers to be composed

The Queen of the Ocean yacht was the first to come to our assistance Her owner, Mr Thomas Littledale, with whom were Sir Thomas Haskeith, Mr Tobin, Mr Polk, and Mr Lafrere, ordered the boat to be lowered, and proceeded with an alacrity and zeal aided by the gentlemen named and the crew of his craft, to pick up all within their reach

The Brazilian steam frigate Affonso, the Prince of Wales, coasting steamer, and the New York packet-ship New World, after some time, came up and rendered effective service

The Queen of the Ocean remained alongside till three o'clock At that time the vessel was burnt near to the water s edge, and there were only a few of the passengers on board, several boats being alongside endeavoring to take them off

Of the origin of the fire I cannot at present say My mind has not yet been so fully composed as to enable me to investigate with accuracy of the probability of the various conjectures which are afloat At present I am inclined to say that it arose from some of the passengers smoking in the steerage, contrary to orders

The Ocean Monarch had a very valuable cargo, the freight of which, together with the passenger money, amounted to about £2610

JAMES MURDOCH,
Commander of the Ocean Monarch

The vessel went down at 1 15 on Friday morning

The cargo consisted of 200 bales and cases of fine goods, 220 crates of earthenware, 36 tons salt and about 600 tons iron and dead weight We have stated the number of souls on board of the Ocean Monarch to have been 380, out of which we can reckon from all sources 229 saved, thus leaving 151 to have perished

The ship had on board when she left the Mersey, 307 passengers in the steerage, 9 in the first cabin, 16 in the second do, besides the crew, 43 in number, making, with the captain, a total 276 souls

The whole of the cabin passengers have been saved, but we believe that a Mr and Mrs Graham, from Manchester, or the neighborhood, who came on board late on the night before sailing, are missing.

Row at a Camp Meeting

A colored camp meeting has been in progress at Allentown Pa for a week more On Saturday night last a scuffle arose among the blacks, in the course of which one of the combatants was stabbed so severely, that his life is despaired of On Sunday a number of whites from Trenton were present, and as might have been supposed, gave some offence to the blacks, who tried to oust them, a regular battle ensued, thus converting the camp ground into a battle field, and desecrating the cause which it was intended to promote —Trenton News, 8th

General Harrison and Martin Van Buren.

To those Whigs who fought so nobly in 1840 for the election of the old Farmer President of North Bend and against Martin Van Buren, and who now repose confidence of the present pre-eminence of Mr Van Buren, and are willing to overlook the enormities of his past life—to all such we commend the following from Gen Harrison, addressed May 23, 1840, to the Whig members of the New York Legislature

A better guaranty for the correct conduct of a chief magistrate may be found in his character, and the course of his former life, than in pledges and opinions given during the tendency of a doubtful contest '—Hartford Courant

By Telegraph to the Boston Evening Traveller.

NEW ORLEANS, Sept 7th

ANOTHER LETTER FROM GEN TAYLOR—Gen Taylor has written another letter explanatory of his position, and alluding to the party extremisms which have been made responsible by some, declares himself a Whig in principle, though not a party man

He considers himself the People's candidate—nominated by all parties, and he presses the hope that the canvass for the Presidency would be conducted with candor, if not with kindness.

He accepts the Whig nomination with gratitude and pride.

He refers to his previous letters, particularly the Allison letter, for his views on important subjects

He says, if elected to the Presidency, he shall endeavor to cement the Union and establish the happiness of his countrymen on an enduring basis

WASHINGTON, Sept 7th

A Distressing Casualty occurred at Alexandria, Va, last evening

A lady named Patterson, undertook to chastise her little son, and unfortunately struck the first blow on the child s temple, when he instantly fell dead The mother has become entirely deranged

Mr Stephens, who was stabbed in a recontre with Judge Keene, it is now believed will recover

Pennsylvania Iron Trade.

The Danville (Pa) Democrat announces the stoppage of the Mountour Iron Works Three of their large anthracite furnaces, together with the large rolling mill are now standing idle, and something like *five hundred* hands have been thrown out o employment

Certainly.

"Mr Van Buren must be judged by his preceding course, taken as a whole—and from that let no man delude himself with the belief that he is fixed to anything but *his own interest*"—The above is Charles Francis Adams opinion of Van Buren in 1844

☞ Governor Seward, speaking of the nomination of Taylor and Fillmore, says—"We cannot withhold our support though endangering the present success and the ultimate usefulness of the Whig party If it be defeated, the policy of the present administration will prevail not only now, but for an indefinite period—How will any old Whig face it, after sneaking along at Van Buren's heels, he finds that all he has done, has been to keep in power that old Locofoco party, which is the antipodes of all he holds to be patriotic and right?

We have seen it stated that Commodore Stockton has taken measures to introduce into the United States some of the breed of horses called *racalar*, with which Co Fremont performed his wonderful feats in travelling in California [Alexandria Gazette

This is the only practical good which the War has yet foreshadowed And yet it would require a great deal of brass in a man to say that the introduction of a Mexican breed of horses is worth two hundred millions of dollars and ten thousand lives

Benefit of Toads.

These animals are very useful in gardens They live on insects which they devour without much regard to the species—the selections being made by toads of different sizes according to the bulk they are able to swallow While the toad is small he is only able to feed on gnats, mosquitoes the smaller beetles &c, but when full grown will swallow almost all insects that infest the garden or field whether in the larva or perfect state The number of insects which they are capable of devouring is surprising to one unacquainted with their habits. Several years since the writer ascertained that a large toad, which he kept confined for the purpose of experiments would devour from eight to twelve grubs the larva of the May-bug or cockchafer (*Melalontha vulgaris*) per day; There is another advantage which they have over fowls in gardens—they will do no injury to any plants their mode of taking the insects being such that the plant is scarcely touched in the act,

[Southern Planter

The Potato Disease.

The following directions drawn from practical experience are well deserving of attention

1 Let all early potatoes that are ripe be immediately taken up

2 Examine the stalks of all others every day

3 Whenever you find any stalk diseased put your foot some on each side of it and pull it up, leaving the potatoes in the ground—do not cut the stalk off, but pull it up by the roots

4 Then tread down and harden the ground over the potatoes and trench it up

5 Burn the diseased stalks; do not on any account leave them on the ground

6 All the late potatoes should remain in the ground and be dug up only as wanted for when the disease has once made its appearance exposure to the air is found to increase it

PROCRASTINATION IS THE THIEF OF TIME.

Delay is dangerous—neglect that cold and cough a few weeks, and the hope of recovery will be lost to you forever Let not any pecuniary consideration deter you from trying to save your life and health, while there is a chance Consumption is annually sweeping off thousands to the tomb, no disease has baffled the skill of the physician like it, no physician, perhaps, has ever done more for the large class of sufferers in humanity than Dr Wistar As 1 ounce of preventative is worth a pound of cure," therefore, before your lungs become ulcerated and so diseased that no human means can save you from an early grave try in season try at once a medicine which has been of such infinite benefit to thousands—obtain a bottle of Dr Wistar's Balsam of Wild Cherry—take it, get another if necessary, persevere in using it until you have removed the disease entirely, which if neglected will terminate your life. It has been before the public for more than sixteen years and was the first article made known to the public as an immediate and perfect remedy for these complaints. It has been thoroughly tested in every country and every climate, and in all of them has every where proved the same—SURE TO CURE, even where the disease has advanced to the last stage The pub c may rest assured that it contains neither opium or mineral substances or any thing that is in the least injurious to the constitution

Certificate from Col Tate, editor of the Columbia Democrat Pa

OFFICE OF THE COLUMBIA DEMOCRAT,
Bloomsburg Columbia Co Pa
March 1 1848

Dr William Wright—Dear Sir—I am one of the many whose aversion to quack nostrums has deprived them of the benefits resulting from the use of good medicines Acting under this influence, I have seldom resorted to the Pill box Last March when you commenced advertising in my paper, I was induced to give your Indian Vegetable Pills a trial, and after having fairly tested their merits for myself and family gave them a decided preference over every other preparation

In every instance when all excited with sick headache, or when the stream of life was encumbered with morbid humors I found speedy relief through the use of your Pills By taking from four to six on going to bed when indisposed, I have always been restored to health without loss of time and without the expense of a physician Wright's Indian Vegetable Pills possess the distinguished merit of operating effectually without disturbing the rest of the patient, in my case, without producing even sickness at the stomach

Respectfully your friend &c

EBEN. TATE

[From the Delaware Express Delhi, N Y

WRIGHT'S INDIAN VEGETABLE PILLS —Although it is particularly fair dealing to patent medicines we must confess that we have become a convert to these pills having had an opportunity on one or two occasions to test their efficacy For a gentle medicine, one or two will be found mild though effective Where bile or other impurities have accumulated and more thorough medicine is required a dose of three or four of these pills taken on going to bed will be found effectual in cleansing the stomach and restoring the bowels to a healthy state. We speak from experience, and take pleasure in commending the pills to the public

Look out for Counterfeits!

Some one coated with sugar, others are made to resemble in outer appearance the original article The safest course is to purchase from the agents only one or more of whom will be found in every town and county in the State

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman]

While we repudiate quackery we are always pleased to give credit where this is truly merited, and to give information which may benefit others. A few days ago a brother of ours, from Norway, Me., came at our office in comfortable health, whom we did not expect to see again on earth We recorded last year's flow of the same brother's decided consumption in the house with him saying that he was confined to his bed and could no probably continue but a short time Judge then of our surprise when we saw him enter our office He has a fine color, is gaining as it would be natural that he should have, until he has had further cure for acquiring strength of lungs Burhan is comfortable health The following letter which he addresses to the General Agent for the medicine which has restored him so wonderfully will show what medicine has been the instrument of the good work

Boston, Feb 16, 1847

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally used, when applied to the face, very soon spoil one of its beauty These close the pores of the skin, and check the circulation, which, when not thwarted by diseases or powder, by the skin inclined by the alkalies used in some, beautifies its own production in the "human face divine," as we see in the gentleman and delicately tinted and vermeil cheek of the child fairly tinted and vermeil glowing A free, active and healthy circulation of the fluids or the nourishing of the pure, rich blood to the extremities is that which gives the complexion one of the most exquisite beauty The blush upon the indescribable shades and tinges of loveliness as that all nature bestows can desire be The healthy action of the organs of nature—not of powder or soap If here is a lady in fair as a dresden china, if she paint and use cosmetics and the blood is sick, cold, and impure, she is not beautiful If she be brown or yellow and there is not still a fine blood, a genuine rich bloom in the cheeks, and a brilliancy of the eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the city who take but little exercise are confined in close rooms, or have not had their complexion by the application of deleterious mixtures, if they wish to regain all sparkling of step, buoyant spirits, sparkling eyes, and beautiful complexion, they should use Dr Townsend's Sarsaparilla Thousands who have tried it or more than satisfied, are delighted Ladies of prostration should use either daily
